SEIU HEALTHCARE WISCONSIN ENDORSES “OUR” MILWAUKEE PLAN

MILWAUKEE—SEIU Healthcare Wisconsin President Dian Palmer released the following statement of support for the “OUR Milwaukee” plan proposed by County Supervisor Marina Dimitrijevic:

“We applaud the spirit of cooperation in the OUR Milwaukee plan. As the largest and most diverse county in Wisconsin, Milwaukee is a vital part of Wisconsin’s economic growth. Yet too often its citizens are often left out of the discussion,” said Dian Palmer, president of SEIU Healthcare Wisconsin. “The OUR Milwaukee plan would create real dialogue between the County and those whose daily lives are touched by Milwaukee County government. Together we can seek fair solutions for vital County services. By involving the participation of a diverse group of business and community partners, we can seek proactive solutions that work for Milwaukee County by bringing all interested parties to the table.”
