**Statement on Governor Walker and Republicans'
Undemocratic Attacks on Wisconsin's Middle Class**

"I am shocked and outraged that our government would tell people one thing and do quite another. Governor Walker publicly announced that he wanted to compromise but at the same time conducted secret meetings and backroom conversations to further his attack on working people. Governor Walker is committed to nothing else other than the complete elimination of the middle class. Anyone tempted to believe that they are exempt from his plans are wrong. This legislation affects us all."

- Dian Palmer, President of SEIU Healthcare Wisconsin
